

Heathkit RF SIGNAL GENERATOR KIT

This RF Signal Generator Kit is rapidly becoming our most popular kit. Calibrated from 150 Kc. to over 100 Megacycles with fundamentals to 3k Megacycles it is adequate for every service need.

An exceptionally complete assembly and use manual makes it a lot of fun to build and no one needs to resort to slipshod methods of alignment when a quality Signal Generator Kit is available for less than a twenty dollar bill. The audio modulation is supplied by a relaxation type oscillator which also supplies a sawtooth audio voltage for amplifier testing.

The coils used are precision wound and factory calibrated eliminating the need for adjusting each band. The kit is complete with large calibrated scales on two color panels, grey crackle cabinet, 110V 60 cycle power transformer, precision coils, test leads, tubes and all other parts.

Converting DYNAMOTORS to 110V. MOTORS

Most types of war surplus dynamotors make excellent ball bearing 110V universal motors by a simple change. By drilling into the armature end and pressing an extension shaft into it, pulleys or grinding wheel may be attached.

The motors make excellent devices for driving displays, toys, fans, models, tool post grinders, buffers, etc.
